

Nancy,
 Don't forget how
 you & Chuck got to
 Junior last summer...
 Maybe I can have another
 party and get you back together.
 Remember all of Jon's, Edie's, and
 Cindy's parties. Remember the night
 of Porter Hollow. You are a good friend
 and I hope it's always that way.
 You, (Not queen)
 Mary.

Nancy,
 Have fun this summer
 bombing around in the car. Remember
 all our fun times riding to the Look
 park. This summer, we walk
 to a look on how we walk
 right just for you. Have fun
~~the~~ cheerleader. ~~you~~ do a Varsity
 Jane

Nancy,

Get yer own car
 so you can let
 us use you. ^{not} really
 I hope you have
 a bunch of FUN
 this summer,
 as I'm sure you
 will, once that
 extra dimension
 makes the move.
 That certain some-
 one is the extra
 dimension. So
 keep on partying

Nancy,
Well another
year has gone by
we have been best of
friends and I hope we
will always keep our friends
ship. I'll never forget all the
good times we had and I hope to
have more. I know I'll be seeing ya this
summer and this year. I'll try to be on
time. You're one of the greatest friends and let's
try to stay out of trouble - like we always do.

Nancy,
Have fun this
summer. Remember
all the good times
with Group II.

Nancy,
I don't know
if you know
you are our
next victim in the
exciting adventures of
Bea Chris

Nancy,
I can't say "stay out of trouble,"
because I know you want!
We've been good friends, and we have
been a lot together, (my house, C.B. Bar).
By luck with you know who, (whoever that
is!) you had any good parties this summer,
p.s. I'll see Bea
I'll meet you in golf today!

Nancy,
to a real
good friend. Re-
member Easton's,
your house and all of
the other parties. I'll
probably see alot of you this
summer. just think, we'll be
juniors next year. We'll be
stay out of trouble. Good luck. &

Nancy,
Remember
all the good times
we had at school?
Jim's. Don't forget our
trunch class! the times
you and chuck came down
see you around this summer
Jill

Hi Nancy!
You're a nice kid
so don't change!
See you this summer!!
Mey

Nancy,
 Remember the time... I remember
 we have had a real
 great year considering me!!
 that you don't like me!!
 on the road, my car! I'll be
 off it with this year. I think you
 great times will get married!! you
 and chuck but so what!!

Nancy,
 We have to get together
 and make a foursome, have
 any idea who I mean, you
 should and you better know!
 We just have one problem "me",
 Carol sort of took my place!
 You'll have to do some persuading,
 a lot (beaucoup)! Have been
 at all the parties and maybe
 they will go to Nina's party!

Salamanca Central High School

Salamanca, New York

Volume XLIX

Sene

Foreword

People tend to change as do the seasons. They grow stronger, wiser and experienced as the years pass. Throughout the history of man there has always been a communion between him and nature. Especially significant has been the cycle of the seasons. This year the Seneca staff has chosen "Seasons" as their theme. The book is divided into four sections - spring, summer, fall and winter.

Spring is the seniors embarking on a new, challenging life. Summer represents the underclassmen in the prime of their high school years, striving for achievement in academics. The fall represents not only the various activities and sports, but also the character, leadership, amiability, service and sportsmanship displayed in both of these fields. And the winter which represents the vigor, the enthusiasm and the excitement of the purpose of our classroom, of our school, the education that we achieve here.

We hope the Seneca '74 has a lot of meaning for you as it does for us, so that you can look back on the pages and say that the Seneca '74 is your book too.

New Direction Sought By Board For '74

STANDING: Mr. John Vosburg, Mr. Robert Bell, Mr. Antonio Carbone, Mr. Jack Dunn, Mr. Donald Wogick. SEATED Dr. Paul E. Kirsch, Mr. J. Mahlon Brundage, Mr. Roy Nettleton, Mrs. Willard Opferbeck, Clerk of the Board.

The responsibilities of a Board of Education are both complex and perplexing. For not only is it concerned with the propriety and the quality of education in the Salamanca schools, it must also project the educational needs for a future generation. At the same time it must determine the financial capabilities of the district, and follow the vagaries and complexities of state laws and programs.

The members of our board spend much time insuring that each child in our district has the opportunity to receive an education that will meet his needs and aspirations. Not only do the members meet regularly each month at a full board meeting, but each of the six committees must meet frequently to solve problems of transportation, finance, and personnel. The dedication of these people insure first-rate education in Salamanca.

Dr. Kirsch, Mr. J. Mahlon Brundage, President; Mr. Roy Nettleton, Vice-President.

Dr. Paul Kirsch, Superintendent of Schools

If we are not thoughtful about time's passing, years seem to blend into one another and we lose the special meaning of each.

Your high school years ought to be especially remembered. Not only do they represent the capstone of your public schooling, but graduation also all too often brings with it a separation from long-time companions.

There will be years ahead as momentous as these have been, but very few will have more overall importance. Therefore, I wish each of you, for the board of education, the faculty, and myself, a life of success and happiness enriched with the memories of your high school years.

Dr. Paul Kirsch
Superintendent of Schools

Junior-Senior High Principal

Mr. William O. Valent, Principal.

Solving the problems of the student body and faculty offers Mr. Valent all the challenge of modern education. We, in Salamanca, are fortunate to have a man who is fair and is concerned about all of us as individuals to efficiently run our high school.

Mrs. Smith Is Senior's Choice

Mrs. Sydney Smith

Just what is a friend? A friend is someone who entertains sentiments of respect and esteem for others which promote that person's happiness and prosperity.

The graduating class of 1974 has chosen to dedicate the Seneca to Mrs. Sydney Smith for these reasons and more.

Mrs. Smith has been more than a friend, she's been a special one to all by offering advice, showing she cares, helping whenever possible, always giving a friendly smile, and listening when we needed someone to talk to.

Respectfully we dedicate this Seneca '74 to her.

"To everything there is a season and a time to every purpose -- a time to be born and a time to die; a time to plant and a time to pluck up what was planted."

Spots upon the walk, apple trees hung with blossom, the bleeding grape heavy on the vine; the mothering blanket of snow: as the seasons progress, so the student through Nature's stages of birth, growth and maturity.

Sally High -- summer-fall-winter-spring -- reflects her student's growth and attainment.

Student Senate

Michelle May, P
Paul Hyatt Treasurer (absent).

This year proved to be a very busy one for the Student Senate. Major appropriations were made to allow for the purchasing of a portable PA system and the funding of three paid assemblies to be presented next year. A major accomplishment was to allow music to be played in the cafeteria during the lunch hour by purchasing and maintaining a juke box.

As in the past, a major duty of the Senate has been the planning of all Homecomings and elections for positions related to these events.

 President.

Admission to the National Honor Society is considered the greatest academic honor attainable by a high school student. Membership in this organization requires an average of eighty-five percent throughout four years of high school and also the qualities of character, leadership, and service in addition to that of scholarship.

The emblem, itself, portrays the high ideals of the National Honor Society. The keystone symbolizes the dependability of each and every member, while the flaming torch signifies the ability of each member to display truth and knowledge in his life, thereby setting an example worthy of being followed by others.

BACK ROW: Timothy O'Neil - Business Manager, Mikel Rosenberry - Exchange Editor, Christine Feichter - Features Editor, Mary Ellen O'Brien - Sports Editor 1st ROW: Shirley Stone - Editor, Tina Pontaski - Associate Editor, Celine Costello - News Editor

The Warrior staff has had two main goals in mind this year. The first goal is to be an open-minded, informative and up-to-date school newspaper open to all sides of any issues brought forth. There have been many constructive articles written about drugs being absent from school without permission and other issues that may concern students around the country. There have also been many well-written articles on the various in-school activities, such as the workings of the Student Senate, projects being undertaken by members of clubs and classes to raise funds or to help others and many areas of interest that the students have.

The second goal of the staff has been to gain recognition above other participating schools at the Saint Bonaventure University Press Day Awards Assembly.

Under the guidance of Mr. Albert Rich, advisor, the hard working staff has done a fine job.

This year's Warrior staff is: Shirley Stone, Editor-in-Chief; Tina Pontaski, Associate Editor; Mary Ellen O'Brien, Sports Editor, Celine Costello, News Editor, Christine Feichter, Features Editor, Mikel Rosenberry, Exchange Editor; James Watson, Art Editor, and Timothy O'Neil, Business Manager.

Rifle Club

This year the Rifle club is under the direction of Mr. John Dugan. The Rifle club consists of sixty-four regular shooting members and a Rifle team. The Rifle team consists of the best shooting members of the team and these selected girls fire against other area schools. The club had a very successful year. A few of the important annual events that took place during the year were the Kiwanis Dinner, Father-Daughter Night and the club picnic. Every night after school you can hear the sound of guns firing at the school Rifle range. Mr. Dugan attempts to teach the girls to shoot safely and to have fun doing it.

Distributive Education aims for leadership training in the field of business, providing outlets and jobs for students interested in a business career. It also helps develop self-confidence in each skill that one may choose.

The club is open to any student in the Distributive Education Class I or II. The organization also provides contests for these students to enter, some of which are: Display Diorama, Sales Demonstrations and the Miss Deca contest. The winners on a local level go on to the state and national levels.

Distributive Education tries to be a prosperous club. The members sell pizzas, and for those who do so, the membership dues are lowered from \$3.50 to \$2.50. The club uses these funds for a trip to Buffalo each year, to visit department stores. The purpose is to show students how a large store is managed. They learn about advertisement shipping and other various and complicated operations that are performed.

This year the club has fifty members and has been a great success with special thanks to Mr. Dugan.

Archery Club

The Archery Club was founded in 1971 by Mr. Phillip Zelazny. The club was formed to familiarize the members with art of archery and to improve their skills. The club practices during activity periods on Tuesday and Thursday mornings.

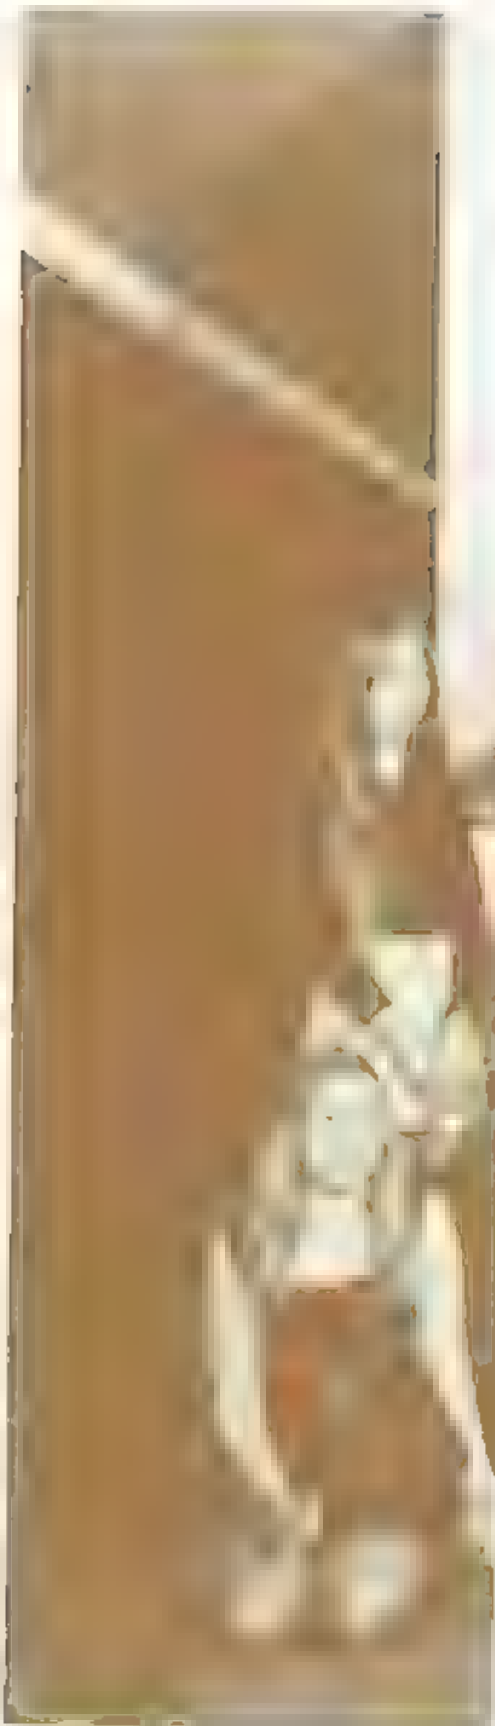

There are fifteen members in the archery club this year. Officers for the year 73-74 are Scott Nye - President; Michael Bromley Vice-President; Joseph Santilippo - Treasurer.

This club is fairly new, yet it has gotten off to a very good start. In a few years, the archery club will be looking for interscholastic competition.

The Candy Club is made up of girls in grades ten through twelve who volunteer to sell candy during the four lunch periods from the most popular and profitable closet in the school.

The girls are responsible not only for selling but also for the inventory and ordering of supplies. This group is the most financially successful in the school. Profits this year exceeded four thousand dollars.

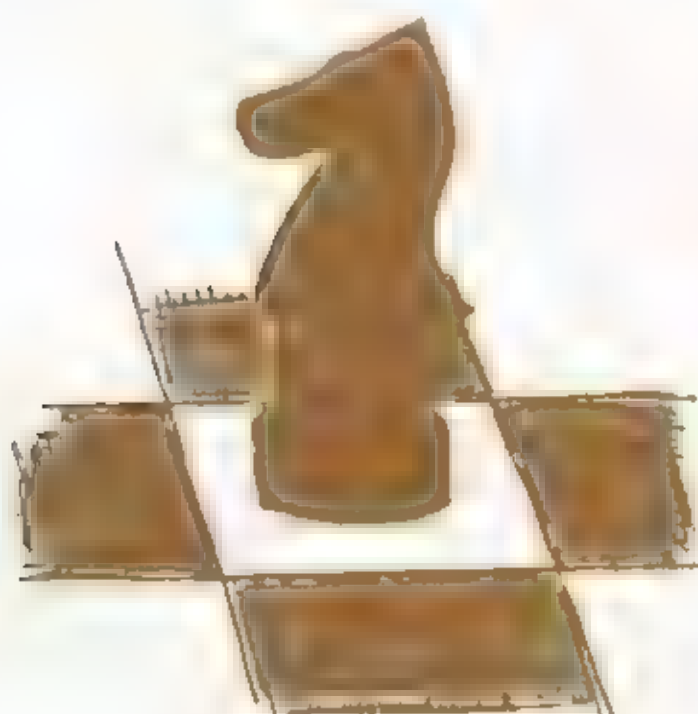

Chess Club

Under the supervision of Mr. Zelazny, the Chess Club offers each individual the opportunity to participate in and to learn the game of chess. Chess, one of the oldest sports, provides stimulating intellectual challenge coupled with a rigorous test of physical stamina.

The chess club which meets twice a week, is opened to those in grades 7-12. It competes in inter-school competition, and one point is awarded for a win and a half point for a draw.

The Aquatic club held its 12th annual show this year under the direction of Mrs. Goergen. One hundred girls and six boys performed to the theme, "Tribute to the Beatles." The show consisted of many different groups of synchronized swimmers and featured the Boy-Girl, solo, duet and floating pattern numbers. The members practice many months to perfect their performance for this May's show. Once again the ingenuity and dazzling costumes left the audience spellbound. The aquatic club was established twelve years ago by Mrs. Goergen to give advanced swimmers a chance to perform and to entertain the public. In addition to the show this year, the girls entered into AAU competition.

BACK ROW: Lori Phillips, Josephine Ricotta, Michelle Dolecki. SECOND ROW: Nancy O'Rourke, Lue Crist, Tammy Krause, Jill Vaaler. SITTING: Glenda Gray.

The Foreign Exchange Club was started last year to promote overseas studies especially in the South and Central American countries under International Fellowship Incorporated. This is a two-way student exchange, and these students spend a designated time in a foreign country. They attend school as well as live with a family and take part in all the teenage activities of the country. While living with this foster family, the student acts as a member of the family rather than a guest. In this way, the student can get a better picture of life in the country.

In return, the student who has one or plans to go to some country under this program receives a student from another country. The past summer, Alexis Kutlej spent her summer in Lima, Peru hosted by Senor and Senora Alak Cordano as part of her participation in the Exchange program and also served as hostess to Angela Carvalho from Salvador, Brazil last year.

As the winter drew near it was not uncommon to hear many of the skiers saying "Thunk Snow". This phrase somehow had caught on near the month of December, as each member of the ski Club anxiously awaited the first snowfall. The snowfall which would put the Ski Club into full operation with night skiing at Wing and also the yearly trip to Vermont.

Skiing was offered to members every Thursday night for nine consecutive weeks at Wing Hollow. Certified instructors taught the eager skiers the fundamentals from snowplowing to parallel to Vattling.

Although the Ski Club failed to sponsor trip to Vermont, it proved to be a very profitable year.

The French Club is a newly formed organization in Sally High this year under the guidance of Mr. Mang and Miss Baker. The club's goal is to better understand the language and culture of the French speaking people.

The club consists of first through sixth year students in the French program and those who have previously taken French and are interested in joining.

Among the many plans the club has made, is a trip to France during Easter vacation. The trip will center around Paris and neighboring cities. There will be side trips to Belgium and other areas of France. Other plans include seeing French plays, musicals and movie.

The Big 30 is sponsored by the Olean Times Herald. Outstanding football players of Northern Pennsylvania and Western New York are voted upon by the coaches of the area. Again Saamanca took a Lion's share of both the offensive and defensive.

All Nation Band

Bernice Schwartz, a senior, was selected to participate in the all nation band which toured Europe in the summer of 1973. The group, high school and college students from each state, spent one month traveling and giving concerts in Italy, Germany, Austria, France, Belgium, and England.

D.A.R. Good Citizen

Alexis Kurley was awarded the D.A.R. Good Citizenship Award. She also competed for scholarships by taking examinations in American History and Government.

Mustang II Economy Run

Three Salamanca students placed first in the Mustang II Economy Run sponsored by St. Bonaventure University on Dec. 3, 1972. The students were as follows: Gary Wind, Cindy Goodrich, and Ken Zalewski. The entire route consisted of about 33.3 miles, with each driver driving 1/3 of the distance.

The schools participating in this event were: Salamanca, with an average of 21.82 miles per gallon, Olean placed second in the event with 21.75 miles per gallon, with Willsboro and Smithport tied with 21.65 miles per gallon.

A reception was held in honor of the Salamanca students. Trophies were presented to each and the school was presented with a scholarship of a \$1000 and a trophy.

Ken Zalewski, Cindy Goodrich, Gary Wind

Dr. John Hammond, member of the Salamanca High School faculty and Science Department Chairman, in conjunction with Dr. Raven, a professor in the science education department of SUNY at Buffalo, has published an article in a national journal - "The Journal of Research in Science Teaching."

Much of the data gathered for this article, the title of which is "The Effect of A Structured Learning Sequence On the Achievement on Compensatory Tasks," was gathered from students in the Salamanca school system, specifically the members of the classes at the sixth and eighth grade levels. The article deals with applications of proportional thinking to math-science problems, and the statistical conclusions indicate that students who have undergone a set of structural exercises in compensatory operations will perform at a higher level on tasks that involve proportionality. This article has brought nationwide recognition to Dr. Hammond and to our school.

Each year in October a test is given on a state-wide basis. This test determines the winners of the New York State Regents Scholarships. Each recipient is entitled to \$250 to \$1000 dollars toward his or her college education, depending upon family income.

National Merit Commendation

The National Merit Tests are given each year to outstanding seniors across the nation. From the hundred thousand who take the test ten thousand who score highest receive a letter of commendation. Mark Pavla was a recipient of this award this year.

Growth and development are the primary concern of the administration and academic staff through the year. Students come and go. What gives permanence, form and character, stature and strength to an institution is administrative effort, particularly in the fields of development of curricula, the maintenance of academic standards, and the encouragement of scholastic achievement.

Purposeful direction of students' special talents, careful guidance for the fulfillment of basic needs, and skilful coordination of the social and cultural facets with the academic phase of a student's life are necessary for the formation of a good student. This direction is provided by our Guidance Department.

There are three major fields in the business department. The first is the Non-Vocational Business Course which prepares the student to accept a position in the bookkeeping field and positions. The second major field is Distributive Education, which prepares the student to accept a position in the retailing or merchandising area. The third major field is the Vocational Secretarial Course which prepares the student to accept a position as secretary or stenographer in nearly any type of office.

The major purpose of the department is to develop the vocational skills of those students preparing for a career in business.

The activities of the department include annual D.E. picnic and trip to a large department store, and participating in Local, Area and State D.E. contests.

Since modernization of offices and new equipment is being developed, we are trying to keep pace as much as possible with these new developments. Fifteen years ago we had one electric typewriter in the business department and now the majority of the machines are electric.

The subjects in the business department which are regents are Business Arithmetic, Typewriting, Shorthand II and Transcription, and Business Law. The non-regents courses are Bookkeeping, Introduction to Business, Personal Typewriting, Shorthand I, Secretarial Practice, Notehand, and Distributive Education I and II.

The English Department, continued its departmental program consisting of elective courses. By its very nature, it satisfies the wide range of study that today's high school student requires. Courses ranging from a study of Shakespearean Tragedy and Modern Poetry to a study of various medias of communication give the student the variety that appeals to him. Other courses offered include Novel, Short Story, British Authors, and Power Reading. A new course, Play Production was offered for the first time. It promised to give students a background in the mechanics of producing a dramatic presentation. For other students a traditional general English program is also offered.

The programs offered by the Mathematics Department provide the fundamentals needed for entrance into fields of higher education or everyday life. The wide selection of courses and courses of study offer a variance of levels to accommodate those whose future plans call for entrance into technical or community colleges as well as those entering college (4 year) or university programs.

At one time the major portion of the mathematics curriculum centered around the college or university bound students. There are many fields that exist today where mathematics enrichment is not necessary. To help the student pursuing this type of training, pre-requisites in math do exist and supplement regular courses of study. There are general non-regents and regents courses available. If a student needs a math requirement the opportunity exists in the secondary curriculum at Salamanca Central High School.

Offers A Bi-Level Program For All Students

HAMMOND, Department Chairman Ch

The primary purpose of the Science Department may be summed up as follows. The presentation of the basic principles of science, as an intellectual discipline and achievement of an appreciation of science, as a creative pursuit of human knowledge. The development of facility in analytical and critical thinking which involves logical and quantitative relationship, the development of scientifically literate citizens, through an understanding of the methods of science and the way of science in society and everyday living, and the stimulation of an interest in science, identification of promising students and the provision of adequate preparations for further scientific studies.

The science courses at Sassa High School include Seventh Grade Science, Earth Science, General Science, Biology, Chemistry and Physics which concentrates on the mathematical aspects of science.

Although there are many objects in the vast field of science, they deal mainly with information, concepts and principles and are interpreted as functional. Science instruction hopefully results in changed behavior, rather than merely in the acquisition of a body of isolated facts, verbalization of concepts and principles or undated mechanical skills. The keynote is understanding and the desired outcome is comprehension on the part of the students as proved by their ability to apply the value concepts to a multiplicity of problems.

The major change is in the method of presentation which is highly structured around the inquiry or discovery approach. Open endeavors in laboratory work enhances the method in the students' environment. In addition the emphasis has shifted from memory to concept.

Art And Music Helped Students

MRS. RUSSELL SCIANORA
Art 7-8

Art is an individual study. Everyone sees things differently, whether it be a line, a color, or a design. In one way art may be compared to a person's manners. It is often that little touch that will impress one instead of just evoking a mere approval.

High school art teaches the student the proper use of materials. To be successful, he must be original and creative in his work and able to accept frustration. In class, the students learn the style of painting and other forms of art through the centuries and ways to portray their society.

Art is a broad field. It involves the student in advertising, design, and in using materials, modeling clay and working with wire, plaster, and paper mache.

Art is a fashion. It changes with the times. It is a mirror of society. We reflect the times in our art.

Express Themselves

Salamanca is proud of the music program in its schools. The depth and scope of the program is reflected in the success our students have had both in competition and as music majors in many universities.

In the junior-senior high school the vocal division encompasses the choruses and ensemble as well as classes which teach the history of music, acquaint the students with the different kinds of music, and prepare the students to sing properly and to read the music.

The instrumental program begins in the grade and is implemented by private lessons in the practice rooms and performances with the whole band. Each year students are prepared for county and state solo competition. In addition the music teachers offer a full range of classroom instruction leading to a music major and even or composition. Theory I, II and III are taught to senior high students.

This year the department hosted the annual All-County Music Festival for the eight area schools. Guest conductors and auditors were from schools and colleges in the state.

The Industrial Arts curriculum presents a varied program centered around four labs with facilities for instruction in seven basic areas.

With all courses structured upon a one semester basis, students are able to select from a large offering those courses which meet their needs and interests.

At the early secondary level, the program is exploratory and general in scope with the students exposed to all seven basic areas.

In the high school, a variety of courses ranging from base level to advanced are offered in all areas.

The basic areas of instruction are Drafting, Forest Products, Ceramics, Metal, Graphic Arts, Electricity and Power Mechanics.

Through industrial arts courses the student is better able to determine and develop vocational interests, consume awareness, an appreciation of craftsmanship and a fuller understanding of the world of technology.

The industrial arts program has expanded to challenge and benefit every student at Salamanca whether his or her post high school plans involve work or further schooling.

Languages Offer Travel And Culture

MR. ARTHUR MANG, Department Chairman
French B, French 3, 4, 5

Learning the languages and the customs of different life styles creates many interests. Last year through the efforts of Mrs. Anderson the Language department took on a new view. This was the trip to Spain that fifteen Spanish students took during Easter vacation. This trip brought more knowledge of Spain than the student could gain from books. This year she went to Mexico with fifteen students. They visited many famous places such as "Thieves Market" where they tried to bargain for souvenirs, and Maximilian's Castle. They also had a party with Mexican high school students.

This year Mr. Mang and Miss Baker took twenty-five students to two countries, Belgium and France. They visited the famous Eiffel Tower and found the excitement of Paris and a touch of the XIIIth Century when they visited the Gothic Cathedral in Reims.

They all found new experiences, creating new interests whether they visited famous places or sat at a sidewalk cafe just talking. These trips left our travelers with many memories and experiences.

The Language department also provides students with two clubs. The French Club was newly formed this year and the Spanish Club which started last year. They have started a long list of new material to acquire for the school, new encyclopedias for the library, and a twelve volume set of Spanish stories. They held a successful candle sale which led to the entertainment of the "Tuna" with music from Spain. The group consisted of students from Spain who toured the United States this year.

Classroom activities cannot be forgotten. There was the use of the video tape equipment to make commercials.

Home Economics

The Home Economics Department has as its main purpose the instilling of a knowledge of the fundamentals necessary to maintain a stable household.

This challenge is met by offering several years study in the field. A mandatory junior high school course may be followed by several more years of advanced learning at the high school level.

Anytime we came to school there was someone here - usually one or more custodians. The service personnel did so much work for us and received very little thanks. They were constantly cleaning the halls and scrubbing the floors. The cafeteria staff managed amid shortage to give us wholesome and popular foods. The cooks spent hours preparing our lunches every day and the food was good. It took a lot of patience for the bus drivers to drive sixty uncooperative high school kids to and from school every day. There was a way to show our appreciation - that was to take a personal pride in our school and ourselves.

THE SALAMANCA INVITATIONAL TOURNAMENT

This year the Salamanca Invitational held a pleasant surprise for the Sally Grapplers. Just coming off a four meet losing streak, the team wrestled very well and showed what they were capable of doing.

In spite of the tremendous competition, the Grapplers gave it all they had. Proof of the tough grade of competition can be found in the fact that Warsaw, the Livingston County champ managed to finish fourth. After the last whistle had blown, Salamanca found itself in third place, and boasted one individual champion in Mark Sartori. Two other second place finishes by John Fitzgerald at 112 and Jack Hager at 177, combined with Mark's performance provided the nucleus of the teams scoring.

Yet this was truly a team effort. Charlie Cappelino, Mike Newark, Art Jacobson and Tom Ciolek all provided extra team points.

A mild surprise of the tournament was Salamanca's Art Jacobson who, coming from an unseeded position managed to finish in fourth place.

Inches away!!!

Football Homecoming '73

Mark and Mary Ellen

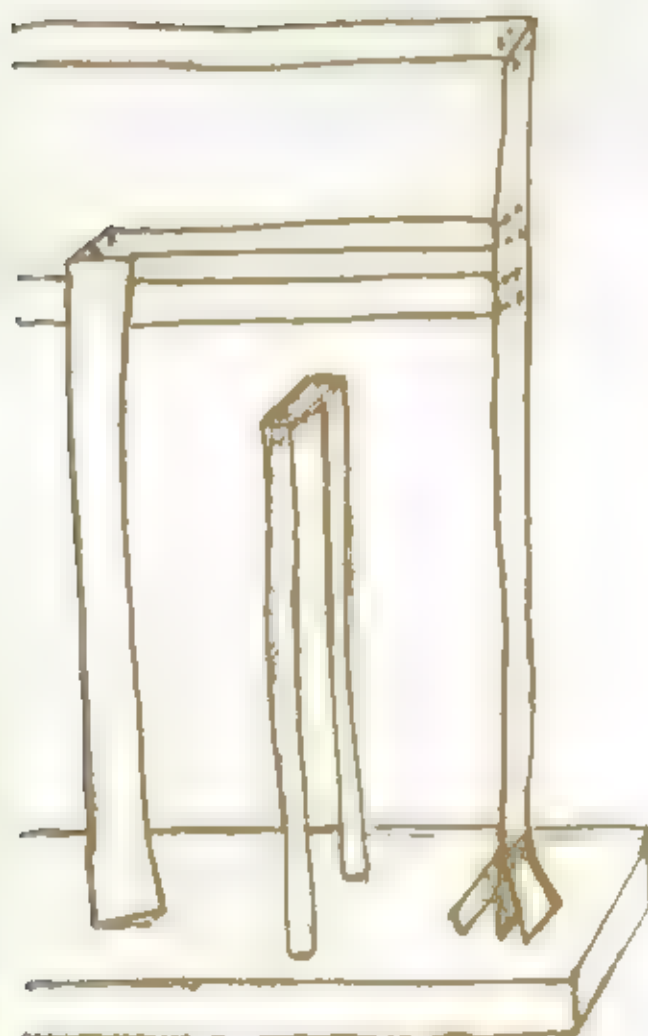

Football Homecoming, one of the major events of the year, was celebrated in the traditional manner, with a parade of the respective class attendants, followed by each class float

The highlight of the evening was the announcement of the king and queen and their court at the pep assembly held on Friday before the game. Receiving the honors were Mark Sarton, King and Mary Ellen Tomblin, Queen.

The court consisted of one boy and one girl attendant from each class. Representing the Seventh Grade was Bill Pavlock, and Melynda Poling. The Eighth Grade attendants were Robert Foster and Mary Kay Speroni. Kevin Quattrone and Kathy Abrams were the Freshmen representatives. The Sophomores had Shawn Reynolds and Diane Kobelin for their attendants. Lora Maus and Ron Dolecki represented the Junior Class while Fritie Sage and Marcia DeGaine were chosen as the Senior Class representatives.

The girl attendants were presented with roses, while the boy attendants received boutonnières. The queen was presented with a dozen roses.

The King and Queen and their court were honored at the Homecoming Dance with the traditional procession, and coronation at midnight.

Senior Ball '73

Richard Ambuske, Tim O'Neil, King Colleen Ivy, Queen, Kathleen Sartori

The theme of this year's Senior Ball was "Winter Wonderland." Decorated with huge snowflakes, miniature snowmen and Christmas trees, this year's Ball was held at the High School Gymnasium. The band, "Cirrus McCloud", was well received by everyone. Intermission was held from 10:30 to 11:30 at the Dudley Motor Hotel for seniors. The highlight of the evening was the crowning of the King and Queen, by Kathleen Sartori and Richard Ambuske who were King and Queen of the ball last year. To top off the evening Santa Claus was there with the Godfather giving charms to the senior girls with the words "Senior Ball 1973" written on them as a remembrance of this very special occasion.

A FIRST BY VARDEN Student Yearbook Photographers Workshop "a Fantastic Success"

In August of 1972, Varden Studios sponsored a workshop for student yearbook photographers which was held on the St. John Fisher College campus in Rochester, New York.

One hundred and forty students and yearbook advisors took over 12,000 photographs during a 3 day period. All photos were processed and critiqued during the workshop. In addition to this everyone enrolled attended 4 theory lectures, 5 one hour talks by top men in their fields, 2 slide shows by Kodak, a tour of the Rochester Institute of Technology photo department and also found time for a cookout and several social hours which included an all night rap session.

Everyone was asked to fill out sheets

to evaluate the workshop. Some of the comments were quote "I hope I flunked I can return next year" by Laurie Chapman, Amsterdam High School, Albany, New York.

"I can return next year" by Terry Tiraborelli, Fairport High School, Rochester, New York. "I thought the whole workshop was fantastic" by Kathy Beechler, John F. Kennedy High School, Utica, New York. "I believe that this workshop, the knowledge and commitment that is involved, has broadened our minds not only as photographers, but also as adult human beings, who can

Nance,

To the better half of the Nancy-Jody dating service. There are so-o many memories to tell about because you always managed to be everywhere! Never (& I mean never) forget Bea's house and me as a nurse. It may have been a year ago, but it still seems like yesterday to me. If you don't have a place to go someday, I'll let you sleep in the pile of rotten apples, if you want to. If you try, it may be able to fit two people. I'll give ya a blanket and a couple of pillows! And, don't forget when you three went running after me! I'll never forget how hard I laughed. Well, there will be a lot more of this, I hope. Don't forget our famous J.V. Squad, & how we all had to cheer extra loud when Mrs. O. (Ma-in-law) came. If it's the last thing I do, I'll see that you two get back together. (Unless stopped by the famous K.A. After all, what would he do without Chuckie?) Don't worry, he loves^{no ma} you -- he just has a strange way of showing it. Never forget your boat party and "Everybody hates me!" and certain people who listen outside bathroom doors.

We've got two more years -- we have to make the best of it.....! Meet ya at the tree every night at 7:30! What will we do when winter comes?

Thanks for always being there... I hope you're there for the next two years!

See ya,

Joel

Nancy,
another year has ended,
with good & bad memories.
We had fun on our J.V. Squad,
Jim's parties and our sleep-outs.
We both had bad memories when
it comes to our love life, but it
seems it ended up good. Just
wait until I get my licence, I'll
run you off the road!!! You'll
always be a close friend.

Love,
Lori

Be good this summer.
Even though Blaise's
room will never be the
same, he'll probably
want me to teach next
year. Even though you
got Italian - good luck
this summer.
Tom

Nancy,
have fun this
summer. It was
fun teaching Randy &
John, well he was
a handsome cute guy (HA)
Be good with the guys.
Mary

Nancy,
What do I say to
the loudest person I know?
Don't ever forget Geometry.
I have fun in Junior Eat - this
summer. Stay sober & Be
good. Have fun with a certain
someone.
R.M.B. & Love,
Tammy

Nancy,
 To one of the
 best cheerleaders
 last year. Never forget
 the great times we had
 like when we got poisoned
 and when we pretended we were
 drunk in the Caf. Lots of luck and
 fun on Varsity, but there'll be no squad
 as Kooky as ours.
 Love ya
 Kim (K.M.A.)

Nancy,

to a good kid. But don't
 ever forget the class of '77."
 Have fun this summer and
 stay sober!

R.M.H.

Kathy

Nancy,

To a real great gal,
 Good luck in whatever you
 do this summer. Have a great
 summer too! And be a great
 and don't drink to much.
